

How to Deal with PayPal - Virtual Credit Cards

Contributed by Webmaster

By Rohan Malhotra

PayPal has been a major online payment system for many businesses and individuals around the world. But many people have negative experience with it. Today internet is full with the horrible stories by many people. A number of complaints are available on internet against the unethical behavior of PayPal. More and more people are becoming victims of PayPal and once your account is ripped off, it is a difficult task to restore it.

Sometimes your account gets frozen due to some incomprehensible reasons. It is better if PayPal provide us with all the dos and donts so that all we know that what they have allowed and what they have not.

It is advisable that before opening an account, you must read their terms and policies. Also you need to get your documents ready all the time. In case if your account has made limited or frozen, you will be asked to provide the photocopies of your documents including your national identity card, your passport, driving license, bank statement, credit/debit card and proof of shipment.

If you are in USA, then in addition to these documents, you will also be asked to provide the photocopies of your green card/passport, social security number and a number of other things. Dealing with PayPal can really be frustrating task especially for the new comers. Here are some tips that can keep your account in good standings.

Never share your user id and password with anyone.

Keep your password unique and never keep it same like your MSN or Yahoo password.

Dont share your personal information with anyone via emails.

Verify your account by providing all the required information.

Before doing business with a particular website, make sure it has legitimate privacy and security seals of PayPal.

Never try to access your account from the unsupported countries.

Never make big transaction instantly.

To securely access your PayPal account type <http://www.paypal.com>

Generate an invoice for every transaction.

Never use your account for sending and receiving money for strangers.

To make your account secure you need to abide by the rules of PayPal and make sure you are using it for a legitimate business.
